CTA optimisation

A screenshot of a web form titled "Additional Details" with a close button (X) in the top right corner. The form contains several input fields: "Make" (a dropdown menu with "Select Make"), "Model" (a dropdown menu with "Select Model"), "Year" (a text input), "Color" (a text input), "Seller Name" (a text input), "Seller Mobile" (a text input), "Location" (a dropdown menu with "Select Location"), "Your Mobile" (a text input), and "Additional Details (optional)" (a text input with a placeholder icon). A green "Continue to Booking" button is positioned at the bottom center of the form.

The current Book Service section on the website and noticed that the process appears overly complex for users. This can increase bounce rate and may reduce the number of completed enquiries or leads.

To improve user experience and conversion performance, we recommend simplifying the booking process.

Suggested Improvement

Please reduce the booking process from two stages to a single step by collecting only the essential details:

- Name
- Contact Number
- Email Address
- Location
- Vehicle Brand

A simpler, faster form will make it easier for users to submit enquiries and is likely to improve lead generation.

Duplicate meta description issue:

The Terms and Conditions page and the Blog page currently use the same meta description. Please update the Blog page meta description to:

“Auto Assure’s used car buying blogs help Qatar buyers avoid costly mistakes, save money, and make confident decisions with expert pre-purchase inspection guidance.”

content just below the H1

Find and buy your next car with complete confidence. Our pre-purchase vehicle inspection service in Qatar offers expertly inspected, reliable cars, ensuring you drive away with quality and peace of mind. From detailed inspections to transparent sales, we make smart car buying simple.

Frequently Asked Questions

When are you available to do an inspection?

Our vehicle inspection services in Qatar are available 6 days a week from 9:00 AM to 09:00 PM, or until dusk—whichever comes first. We're closed on Thanksgiving, Christmas Eve, and Christmas Day. Please note, we do not perform inspections at night or in rainy conditions.

What vehicles do you inspect?

We inspect most standard vehicles that are 20 years old or newer with under 200,000 miles on the odometer. This includes cars, trucks, SUVs, crossovers, hybrids, and EVs. Heavily modified cars and trucks are not eligible for inspection.

Currently, we don't inspect classic cars, motorcycles, RVs, motorhomes, semi-trucks, or buses, but we plan to add these services soon as part of our expanding vehicle inspection Qatar services.

How long does an inspection take?

For most vehicles, our inspections take just over an hour. Longer if many issues are found.

When is the soonest you can inspect a car?

It's possible we can do it today if it's early enough and the seller is agreeable and available. However, that's not usually the case as many things can happen to prevent a same day inspection. Instead, we usually get things done within 24 to 48 hours after receipt of payment.
